## PREFACE

A series of Photographic Interpretation Briefs on significant Chinese naval targets (COMOR and non-COMOR) will be published by NPIC.

The briefs are designed as a series of installation sheets and may be collated in any sequence into handbook form.

Each installation sheet will contain identification and reference data, a brief summary of facilities, an annotated photograph with mensural data, and a location map of the installation.

All dimensions are considered approximate.

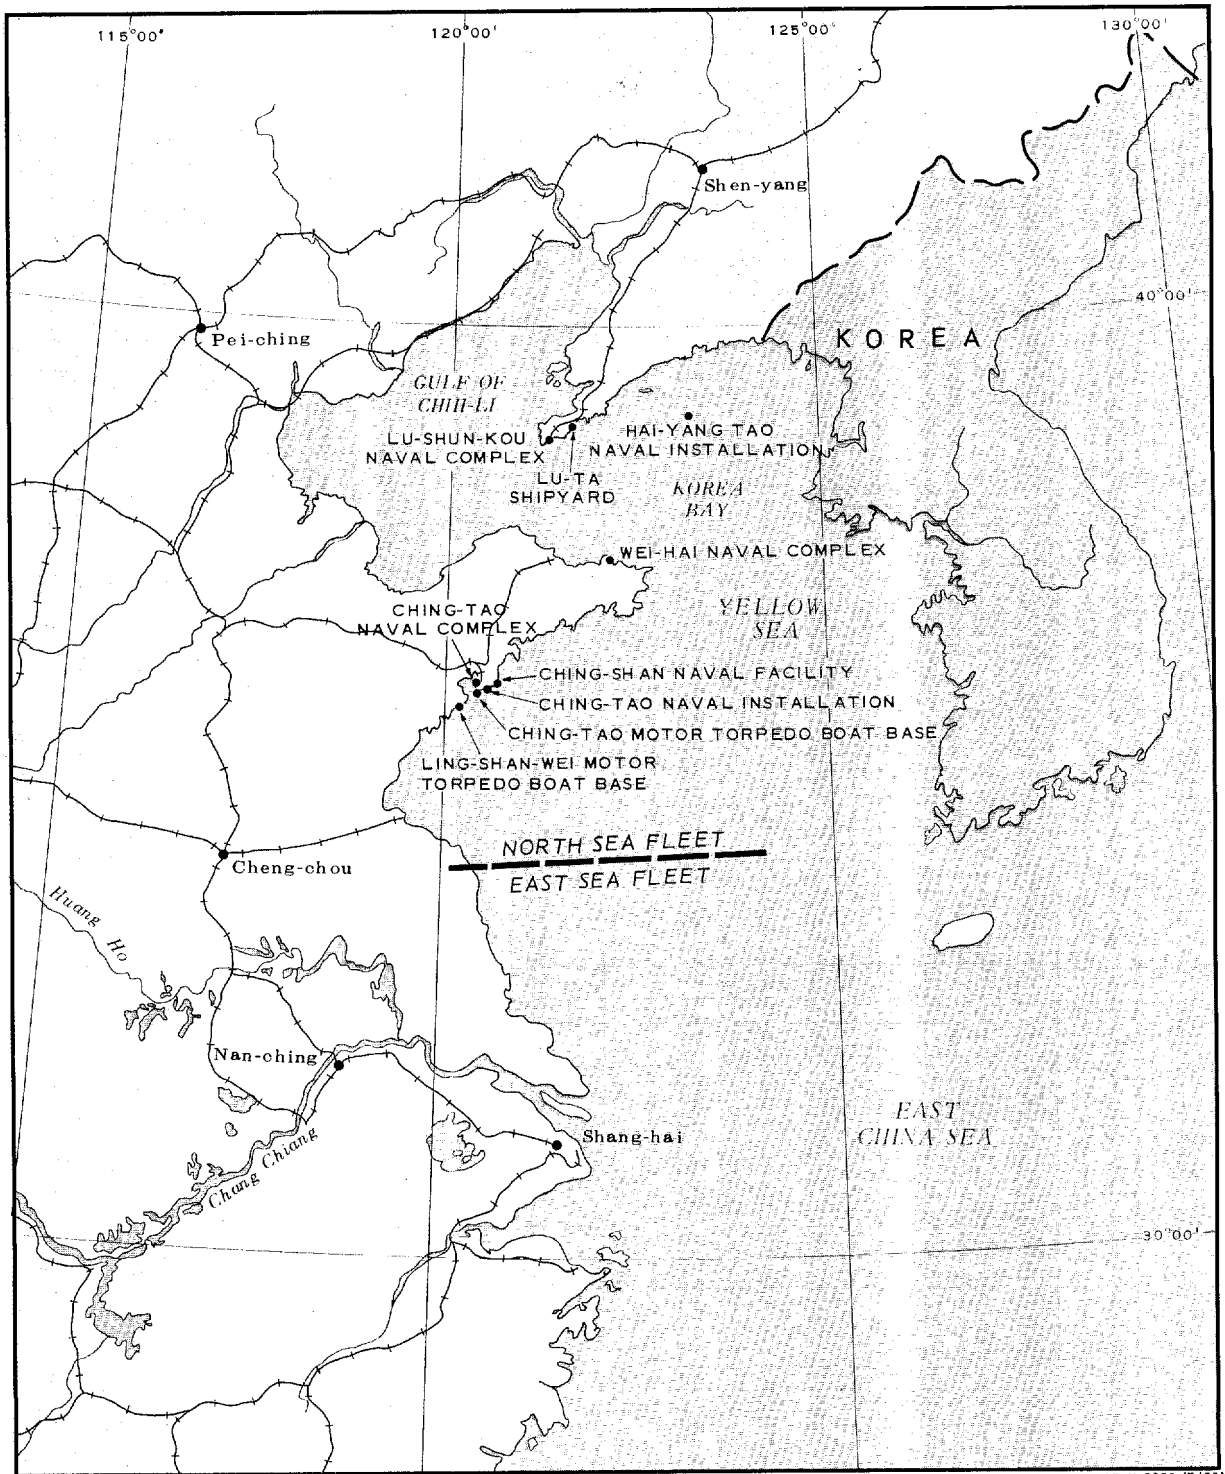

Initial publication will correspond to the North, East, and South Sea Fleet areas, and base locator maps will be provided for each Fleet area. As new targets, significant changes to facilities, or significantly better photography becomes available, new or replacement photographic interpretation briefs will be published.
